

New Hampshire Adult Education Standards Model Lessons

Foreword

The materials of the Standards Working Groups represent a major milestone in the effort to continue the focus of Adult Education in New Hampshire on the everyday issues confronting our students. These materials represent the very best work of Adult Education practitioners from around the state. It is my hope that this collection of model lesson plans will become a dynamic document, one that grows and changes as we become better and better at aligning our teaching efforts to the needs of our students.

I would like to thank all of the people that have been involved in this project over the past five years. Your willingness to participate in this project will benefit thousands of adult students in New Hampshire on into the 21st Century.

Art Ellison
Administrator, NH Bureau of Adult Education

Overview—Layout of Materials

There are four sections in New Hampshire Adult Education Standards Model Lessons: Community Lessons and Worker Lessons in Volume One and Family Lessons and General Lessons in Volume Two.

In each section, you will find one or more model lessons for every standard. Each model lesson begins with an outline of classroom activities. Each also includes a number of attachments which can be copied for use as handouts or transparencies.

The goal is to make it easy for you, the teacher, to locate the materials and ideas you need to present this lesson. You can concentrate on customizing the lesson for your situation and your learners, not on searching for materials.
